

# ElandersUSA Equipment List

Elanders USA global media solutions are brought to life with our state-of-the-art equipment. Everything from prepress to the latest 12-color presses to advanced bindery capabilities turn vision into reality.

## DIGITAL PREPRESS

Elanders USA utilizes leading edge digital workflow technology that features high-speed ripping and auto-trapping, a wide variety of true color proofing systems and direct-to-plate digital output. In addition, we have high-end scanning, retouching and laminating capabilities, putting everything you need under one roof.

### Desktop

- PowerMac G5
- 2 Heidelberg SignaStations

### Rip

- Artwork Systems Nexus

### Proofing Devices

- 2 Heidelberg / Creo Trendsetters / Spectrums
- Artworks Xproof
- 2 Epson 9800 Inkjet Proofer
- HP Designjet 5000 Inkjet Proofer
- HP Designjet 5500 Inkjet Proofer
- Kodak Digital MatchPrint
- 447 MatchPrint Laminator

### Calibration Hardware

- Gretag Transmission / Reflection Densitometer
- X-Rite Spectrodensitometer
- X-Rite CCDOT Plate Scope XRD60

### Additional

- Meza Normlight Viewing Booth
- Heidelberg Plate Register System
- CAD System
- Gerber Precision Dies
- Easy Bender Turbo

## PRESSROOM

The latest generation presses are networked to Heidelberg's Color Control system for precise, consistent color. The CutStar roll sheeter combines the affordability of web roll paper with the high quality of sheetfed printing. And we're doing it all while reducing hazardous waste and recycling up to 95 percent of our blanket wash.

### Offset Press

- Heidelberg 40" Speedmaster 102 - 12p 28x40" 12-Color Press with CutStar
- Heidelberg 40" Speedmaster CD 102 S+L 28x40" Six-Color+ Press
- Heidelberg 40" Speedmaster CD 102 UV Coating Press 28x40" Off-Line UV Coating
- Heidelberg Quickmaster 46 Two-Color Press

### Digital Press

- HP Indigo 5500

### Support Technology

- Heidelberg Image Control
- Heidelberg Prepress Interface
- Maratek Environmental Recycling System

## BINDERY

Whatever type of bindery your project needs, Elanders USA can handle it. From spiral binding to saddle stitching to custom-made dies and various finishing applications, we have the latest equipment to finish the job as beautifully as it was started.

### Die-Cutting / Scoring

- Bobst Super Autoplaten Model SP 102-E II 40"
- Heidelberg T Letterpresses
- Heidelberg Cylinder Press

### Cutting

- Polar Model 137 54" Cutter
- Polar Model 115 45¼" Cutter

### Folding

- 2 Stahl B-26 High-Profile Folder
- Stahl B-26 Low-Profile Folder
- Stahl B-30 4x4x4 Profile Folder
- Stahl B-20 4x4 Pile Folder

### Punch / Drill

- Rhin-O-Tuff HD 6500 Open End Electric Punch
- Baum Automatic ND-10 Paper Drill
- GBC Punch

### Binding

- Two Moll Marathon Regal Folder / Gluers
- ST-270 Saddle Stitcher
- Eurobind 600 Pur Binder
- Rhin-O-Tuff C1 3000 Plastic Spiral Coil Inserter
- Rhin-O-Tuff HD 4270 Wire Closer
- Interlake 93 Stitcher

### Finishing

- Busch SWP 120 L2 Skid Turner
- U.S. Papers Counting System
- C-Pak Shrinkwrap
- HP102 Hanagata Auto Sealer

## BEYOND EQUIPMENT

It's not just our equipment that helps us get the job done. We offer other services that get your printed piece to its destination. Whether it's to you, to your client or to be stored for use later.

### Shipping / Delivery

Automated programs for UPS, Maxi-Ship, Federal Express and freight lines, plus company trucks for local deliveries.

### Fulfillment and Collateral Distribution

We warehouse printed materials in secure storage under environmentally controlled conditions, with protection from fire, dust and moisture. Our Unix-based system allows us to pick and pack premium and collateral items for immediate distribution. Our system monitors warehousing and distribution, collects data and generates reports. Our reporting gives you total control of all your premium and printed materials, helping you manage your budget.
